Pinchard's Island: cabin window, 2017-2020

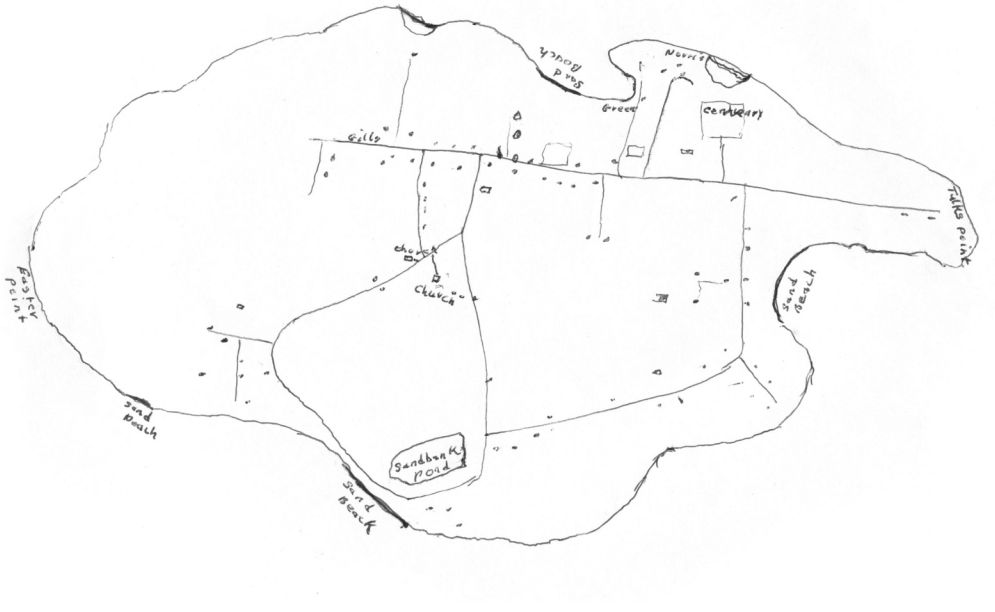
Cabin window (the view Cloudberry photographed, and the one Dreamberry generates); cabin exterior; shoreline as a diptych.

Photography · Window, 50 × 50 in framed inkjet print; Cabin and Shoreline 30 × 40 in framed inkjet prints

Cloudberry: contact sheet, 2017-2018

Nine frames from Cloudberry archive: fog on the lens, the horizon whited out, and the exposure failing in daylight.

Photography · Solar-powered camera system, Raspberry Pi



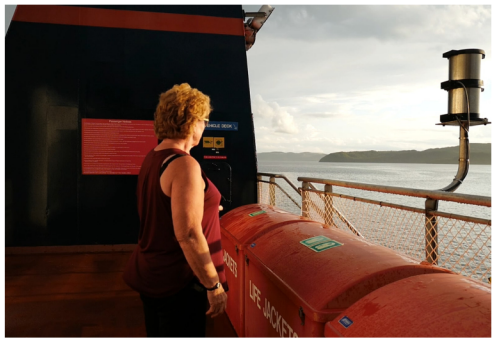
Pinchard's Island, 2020-Ongoing

Doris, 1958 and 2020, with Bob Green's memory map.
40 x 50 in c-print; Memory map, 16 x 20 in inkjet print

Cabin, 2017-2018

A studio rebuilt around the live Cloudberry feed; the window is the camera's view.

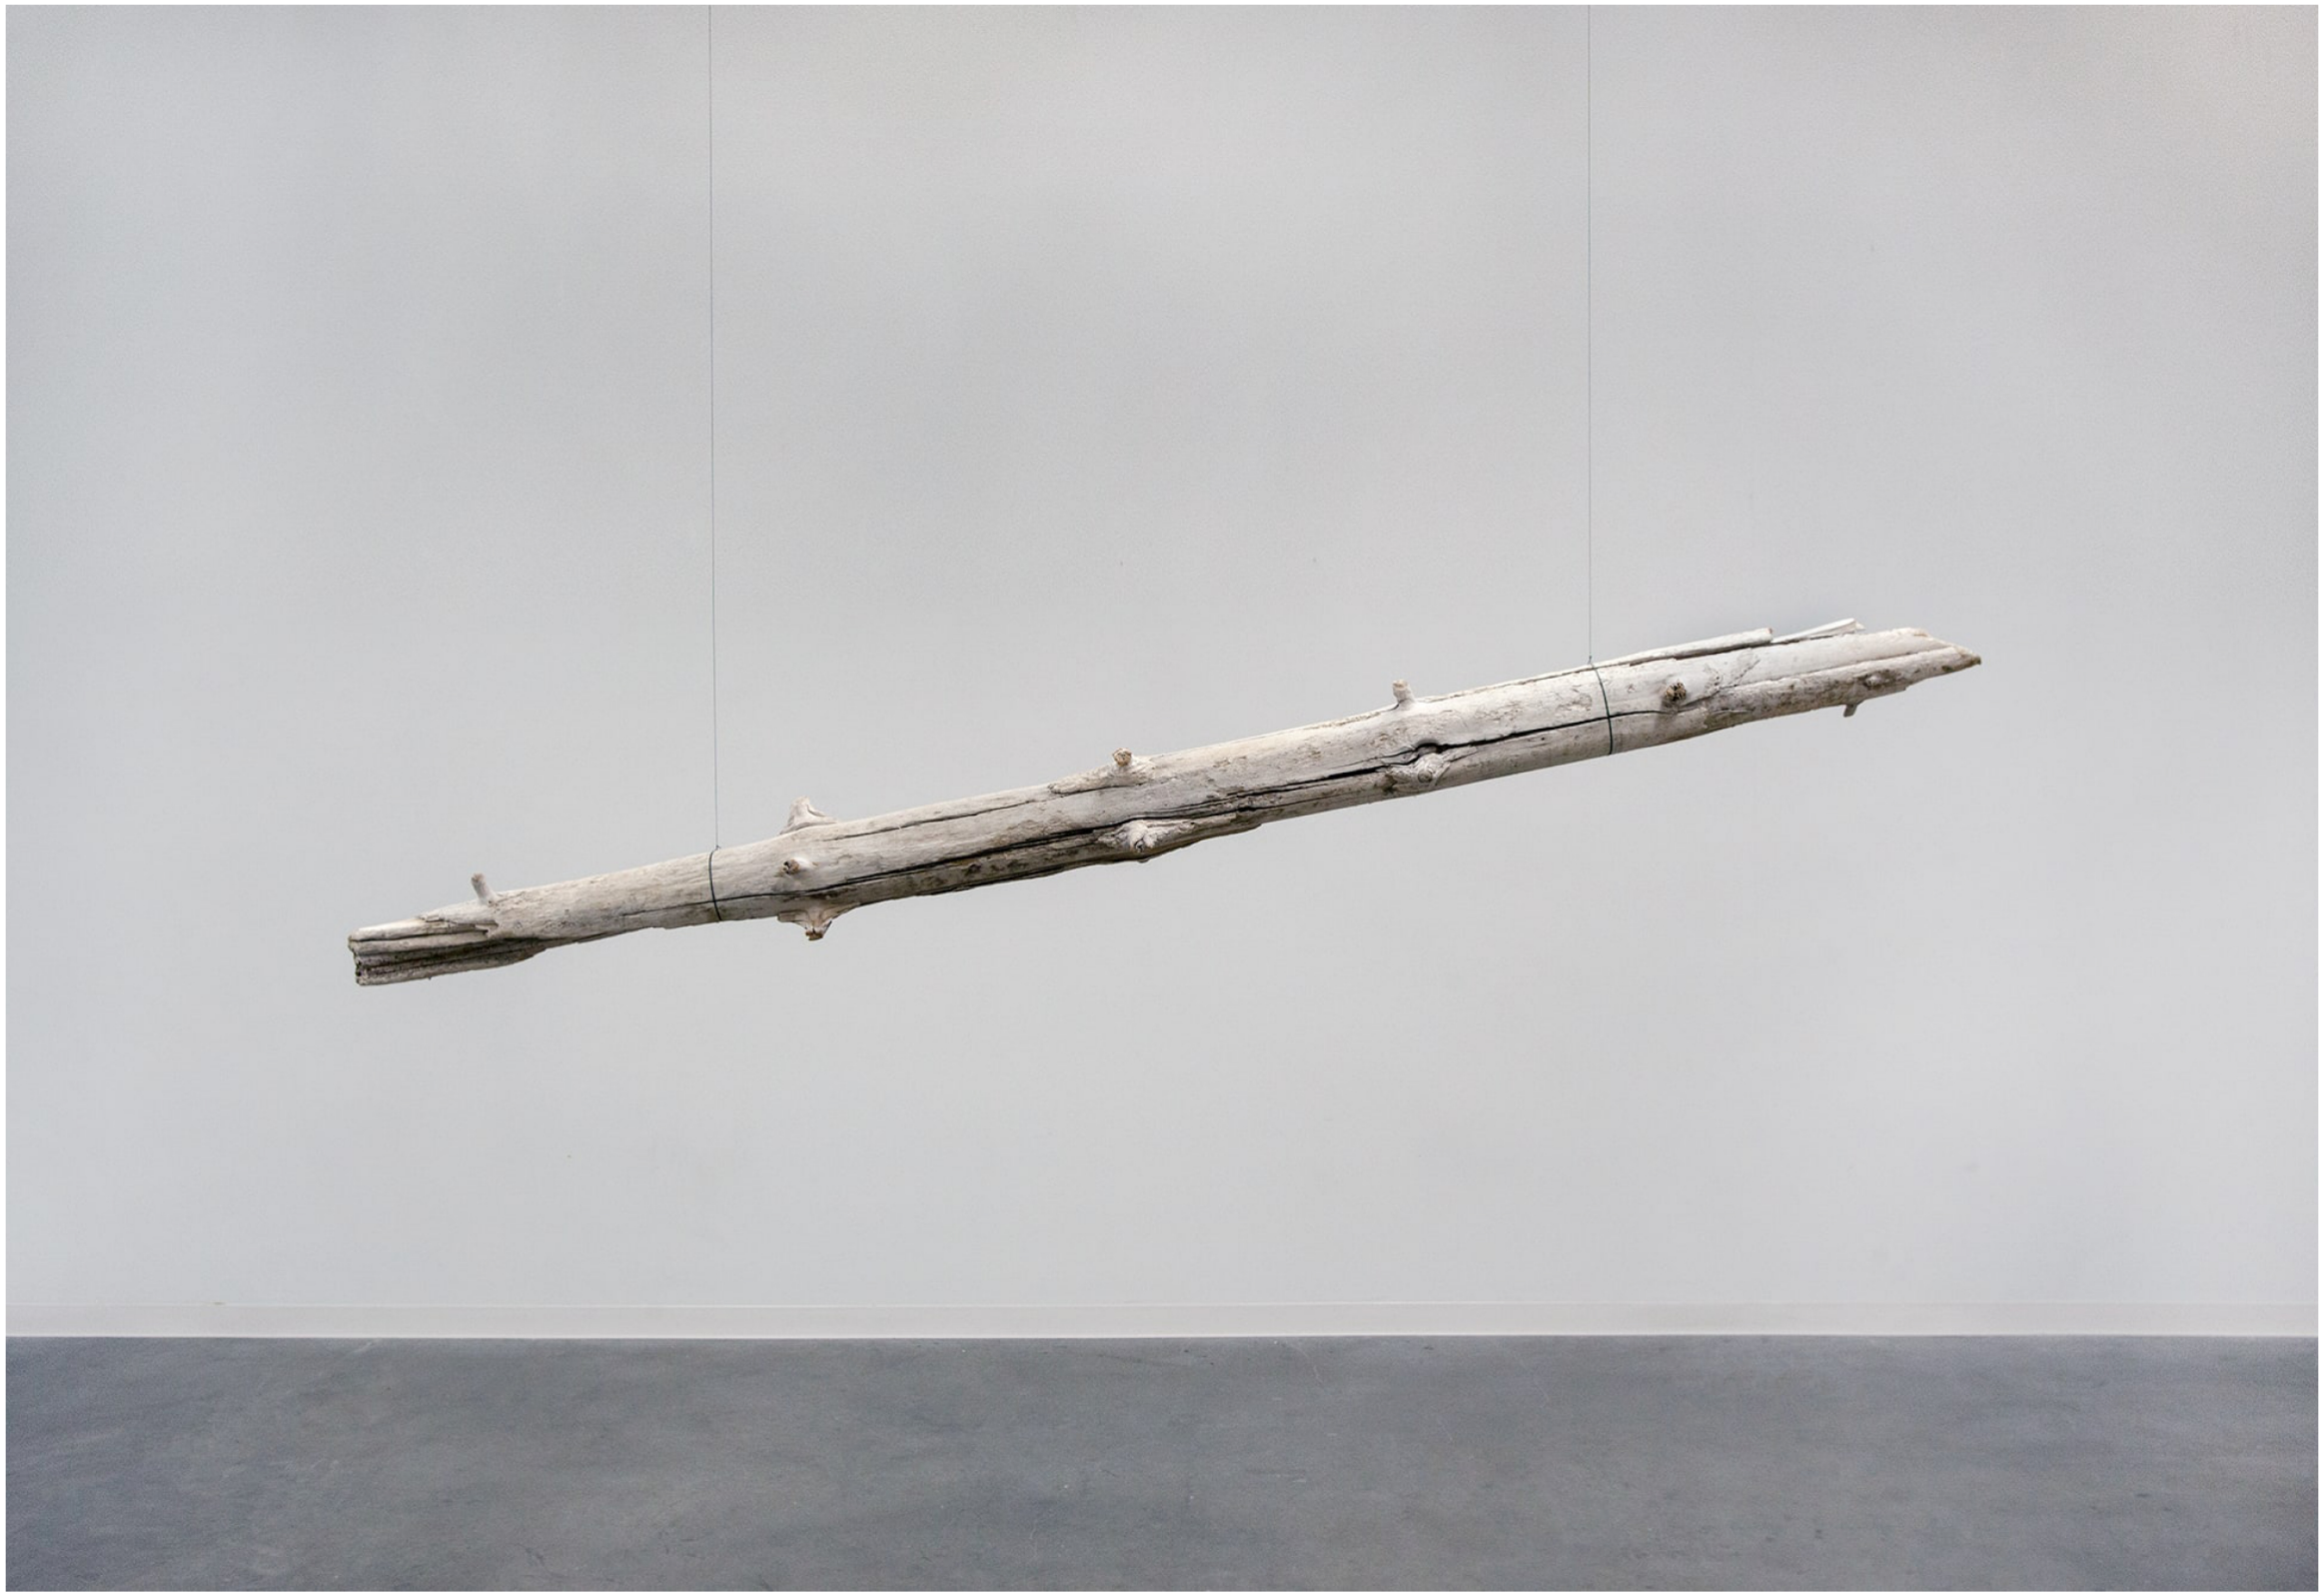
Installation, architecture, video, object



Mug Up, 2018

A mug up on the shore with my grandmother.

Video; sound, 8 min. vimeo.com/305628538, watch 0:00-2:00



Driftwood, 2018

A sea-weathered log, suspended and moved by live ocean data.

Kinetic sculpture, live data. vimeo.com/269360970, watch 0:00-1:00

Light House, 2020

The frame of a solar-powered house lit on the shore at night.

Sculpture, light, wood. vimeo.com/499014653, watch 0:00-1:00

Dreamberry: nine generated stills, 2026

Early image-model generation tests, including a failed frame.

Digital files

Dreamberry: prototype sketch, 2026

Exploratory rendering of one generated still spread across LED panels behind frosted acrylic.

Digital rendering

Dreamberry: prototype, dawn and dusk, 2026

Exploratory renderings at two different hours, showing how the field of light changes with the weather and light.

Digital renderings
